

L508

ENZYME LAUNDRY DETERGENT

This product is a quality laundry detergent specially compounded with proteolytic enzymes for successful removal of protein-based stains like blood, perspiration, meat juices, eggs, etc.

It can be used in the suds cycle or as a presoak for particularly stubborn stains. This product is safe on all washable fabrics and is ideal for use in institutional, commercial and food plant applications.

DIRECTIONS FOR USE: Use 4-10 oz. per 50 lbs. of dry fabric depending on soil conditions. This product works most efficiently at a pH range between 8 and 10.5. A pH of 11.5 or higher is not recommended.

Water temperature should be in the range of 120 - 140°F. A temperature of 160°F or higher is not recommended.
